## Fridge Compartment Side Panels

Fridge side panels are a lightweight , space efficient alternative to a ply fridge box. They will allow maximum pack space next to your fridge, yet still allow enough room for your fridge to breath.

Panel Size (L x H x Folded return)		Galvanised Steel	Aluminium
490 x 780 x 10/10		\$40.00	\$65.00
520 x 920 x 10/50		\$50.00	\$75.00
570 x 780 x 10/50		\$42.00	\$67.00
570 x 780 x 10/10		\$42.00	\$67.00
620 x 780 x 10/50		\$45.00	\$70.00
620 x 780 x 10/10		\$45.00	\$70.00
640 x 780 x 10/50		\$45.00	\$70.00
640 x 780 x 10/10		\$45.00	\$70.00

### Note:

Use a 10/10 side panel when the fridge slide is longer than the side panel. This will allow the fridge to poke out the back of the fridge compartment without fouling.  
Use a 10/50 side panel when the fridge slide is the same length or shorter than the side panel.

Mazda Bravo	\$480.00	\$480.00	----	----

### **Note:**

Ply panel kits are CNC computer cut and include 1 x base board, 2 x lift up wing panels, top panels and 2 x lock panels to suit your specific vehicle. They are designed to work in conjunction with ORS drawer frames. We make allowances within these ply parts to allow for a carpet thickness of 4mm. Some Fridgepack parts will need trimming with a jigsaw as we supply the top panel and fridge side wing panel as a bigger generic size. Please specify if your vehicle has a rear air-conditioning unit as parts may differ. Panel sets to suit Dualcab Utes can only be supplied to fit a bare tub, not one fitted with a plastic tub liner.

Hose Kit				<b>\$20</b>
Electric Pump & Tap kit				<b>\$210</b>
Ute canopy mounted water filler				<b>\$45</b>

### Note:

ORS Water tanks are designed to fit between the back seat and an ORS Drawer System. We recommend fitting a ply base board to your vehicle first and then the tank on top. This will give you a flat surface to mount to as well as multiple fixing positions.
